'Knowledge is not power, Application of knowledge is power'

"New Palanpur for New India"

"Our Problems-Our Solutions"

(03, March 2020)

- Appreciation letter will be awarded to upcoming startup/firm from SSIP Cell Government Polytechnic Palanpur.

List of startup/firms to be awarded:

1. **Dustimon :**

It is a dustbin which looks like any famous cartoon character and main target audience is children. In public places, children like to play with remote controlled toys or Games, Instead of that, we designed our Dustimon (Dustbin) that can do the task of remote controlled toy car and we added some more features like to speak, to open and close mouth of dustbin. A social game is designed with this dustbin for completing "MAKE IN INDIA, CLEAN INDIA, DIGITAL INDIA, STARTUP INDIA, INNOVATE INDIA AND EMPOWER INDIA".

- It is prepared by Pass-out student of Degree Engineering now incubated in our SSIP cell and 6th semester electrical students of G P Palanpur.
- Financial support and mentoring support provided by SSIP Cell G P palanpur for prototype

2. **Local News Android Application:**

This is android application prepared for local news. In this application we can get all local news updates very fast and also there is facility for advertisement from local shop keepers.

- It is prepared by DAICT, Gandhinagar (IT Engineer) pass-out student and currently incubated in our SSIP cell
- Mentoring support provided by SSIP Cell G P Palanpur for prototype and for financial support it is under process.

3. **Mobile control- Industrial electrical control panel:**

This Device can easily be fixed in three phase industrial control panel to operate appliances/machine using smart-phone. Cost of this product is around 1000Rs while market price is around 5000Rs.

- It is prepared by 4th semester electrical student of G P Palanpur
- Mentoring support provided by SSIP Cell G P Palanpur for prototype and for financial support it is under process.

4. A K Electrical: Solar Roof top contractor

MSME Register firm; it is for solar roof top installation and servicing in Houses, Farms and for big industries.

- This firm is founded by pass-out (2018) students of electrical department, G P Palanpur.
- Mentoring support provided by SSIP Cell G P Palanpur.

5. Low cost bending machine:

It is very useful for construction industry to mould the rods and plates.

- It is prepared by 6th semester mechanical students of G P Palanpur.
- Financial support of Rs 62000 has been provided by SSIP cell G P Palanpur.

6. Automatic water distribution system and water flow controller:

It is very useful for making automatic water distribution system in society, government buildings, colleges, houses etc..

- It is prepared by 6th semester electrical students of G P Palanpur.
- Financial support of Rs 10000 has been provided by SSIP cell G P Palanpur for prototype.
