- Appreciation letter will be awarded to upcoming startup/firm from SSIP Cell Government Polytechnic Palanpur.

  List of startup/firms to be awarded:

  1. **Dustimon :**

     It is a dustbin which looks like any famous cartoon character and main target audience is children. In public places, children like to play with remote controlled toys or Games, Instead of that, we designed our Dustimon (Dustbin)that can do the task of remote controlled toy car and we added some more features like to speak, to open and close mouth of dustbin. A social game is designed with this dustbin for completing "MAKE IN INDIA, CLEAN INDIA, DIGITAL INDIA, STARTUP INDIA, INNOVATE INDIA AND EMPOWER INDIA".

     - It is prepared by Pass-out student of Degree Engineering now incubated in our SSIP cell and 6th semester electrical students of G P Palanpur.
     - Financial support and mentoring support provided by SSIP Cell G P palanpur for prototype

  2. **Local News Android Application:**

     This is android application prepared for local news.In this application we can get all local news updates very fast and also there is facility for advertisement from local shop keepers.

     - It is prepared by DAIICT, Gandhinagar (IT Engineer) pass-out student and currently incubated in our SSIP cell
     - Mentoring support provided by SSIP Cell G P Palanpur for prototype and for financial support it is under process.

  3. **Mobile control- Industrial electrical control panel:**

     This Device can easily fixed in three phase industrial control panel to operate appliances/machine using smart-phone.Cost of this product is around 1000Rs while market price is around 5000Rs.

     - It is prepared by 4th semester electrical student of G P Palanpur
     - Mentoring support provided by SSIP Cell G P Palanpur for prototype and for financial support it is under process.

4. **A K Electrical: Solar Roof top contractor**

   MSME Register firm; it is for solar roof top installation and servicing in Houses, Farms and for big industries.
   - This firm is founded by pass-out (2018) students of electrical department, G P Palanpur.
   - Mentoring support provided by SSIP Cell G P Palanpur.

5. **Low cost bending machine:**

   It is very useful for construction industry to mould the rods and plates.
   - It is prepared by 6th semester mechanical studentsof G P Palanpur.
   - Financial support of Rs 62000 has been provided by SSIP cell G P Palanpur.

6. **Automatic water distribution system and water flow controller:**

   It is very useful for making automatic water distribution system in society, government buildings, colleges, houses etc..
   - It is prepared by 6th semester electrical students of G P Palanpur.
   - Financial support of Rs 10000 has been provided by SSIP cell G P Palanpur for prototype.

Panel 1

A K Electrical

- ✓ Solar Roof Top Installation
- ✓ Off Grid Solar Pumps
- ✓ On Grid Solar Pumps
- ✓ Industrial Solar Roof Top
- ✓ Maintenance of Solar Products

Panel 2

DUSTIMON
PAY TO CLEAN

- ✓ Clean India
- ✓ Digital India
- ✓ Skill India
- ✓ Make In India
- ✓ Empower India

~ Founder and Co-founder ~

Hitesh Patel (Founder) Gouswami Dishantbharti Barad Dipendrasinh

Panel 3

Indian Engineering

Flexible bending Machine

- Routine industrial purpose
- Fabrication of plate, bars.
- Construction industries

~ Founder and Co-founder ~

Pathan Navedkhan Zala Mahipatsinh
+91 7600662175
6⁰ Semester Mechanical
Government Polyatomic Palampur

Panel 4

Master Control System

IOT BASED

- Device Location can be Known.
- ON-OFF from all over world (Internet Required)
- Economical
- Unique product.

~ Founder and Co-founder ~

Manasiya Wasim Mahammad Rizwan
+91 6355120805
4⁰ Semester Electrical
Government Polyatomic Palanpur

Panel 5

Master Control System

DROP & DROP

- Smart water TAP
- Affordable water level indicator/controller
- Automatic water distribution system design
- Paper bag making machine
- Long life Lighting system for street food seller

~ Founder and Co-founder ~
